C3 5W-40 PD LS

Fully synthetic low SAPS engine oil

Product code: FPPD

Product Description:

C3 5W-40 PD LS is a new generation fully synthetic multigrade engine oil formulated using the latest developments in synthetic technology together with the most up to date advancements in additive chemistry.

C3 5W-40 PD LS has been developed to enable outstanding performance to be provided along with full compatibility with emission control after treatment systems. Low SAPS (sulphated ash, phosphorus and sulphur) additive technology allows optimum performance of these systems, including particulate filters, which ensures a high level of continuous pollution control thereby minimising environmental damage.

Benefits:

- A highly advanced low SAPS engine oil
- Suitable for VW PD engines, GM dexos2™, modern Fiat and certain Ford KA
- Provides protection for diesel particulate filters and catalytic converters
- Provides high performance with fuel efficiency

Applications:

C3 5W-40 PD LS is particularly suited to vehicles equipped with anti-pollution systems such as diesel particulate filters where its low SAPS levels will greatly prolong the lifetime of the filter. It is also ideally suited to VW PD (Pumpe Düse) engines as well as modern Vauxhall engines which require the dexos2™ specification.
